

# TradeAssure: Importer of Record / Exporter of Record

Experience seamless and reliable importing and exporting worldwide.

We understand expanding into new regions requires strategic and tactical planning. But that's just the start. Once you know where you want to go, you need help getting there.

At Flash, we provide a strong service network around the globe to expand across borders while avoiding overhead costs of establishing legal entities in each region. As part of that commitment, we have an expert team of global partners with regional processes in place to ensure the smooth, accurate, and predictable movements of spare parts across borders.

## Our Responsibilities

Obtain any required license or certification, to authorize import or export

File for import and export with Customs to facilitate the movement of goods

Handle the payment of duties and taxes issued by local Customs

## Our Partners

Present in multiple countries around the world

Compliant with all local, regional, and global trade regulations

Provide consistent and predictable import and export processes

## Your Benefits

Cost avoidance of establishing legal entities in new regions

Minimized risk of delays and penalties by using local expertise

Assurance the U.S. Export Administration Regulations are met

Elimination of overpaying or underpaying local duties and taxes

Reduced risk of trade violations through tech automation

Retained ownership of the part until it's delivered to your customer

Streamlined global growth with reliability and predictability

To put it lightly, **we do the heavy lifting**, giving you complete confidence all global trade compliance requirements are met, while you maintain complete product ownership throughout the process.
